

### Practical Safety with a "Team Approach"

Safety Resources has been a major contributor to our success in delivering our new \$25m chiller boiler plant to serve the new hospital. Their knowledge of how to get things done safely in a practical manner has been quite impressive. Their willingness to make the "team approach" has also proven to be very effective. Their most significant trait is their ability to help get things done in today's highly supervised, highly scrutinized, frequently inspected, frequently halted Owner Controlled Insurance Program (OCIP) working environment. Without their help, our project simply could not have been delivered on time, on budget, with only three first aid cases over a period of a year and a half with five separate prime contractors and nearly two dozen subs.

"Safety Resources can help you **DELIVER** projects in a safe and controlled manner."

Mark A. Wild, Project Engineer  
Thermal Project Manager  
Citizen Thermal

### Strong Working Relationships – "RAISING THE BAR"

The relationship we have with Safety Resources the last 10+ years has not only allowed us to make that commitment to the safety of our employees and our customers, but to "**raise the bar**" in our attempt to be on the leading edge of safety in our chosen field. The level of safety we have attained and hope to attain in the future would not be possible without the help of Safety Resources, Inc.

Dave Tyndall, Vice President  
Southern Roofing Incorporation

### Our Commitment to Safety

Safety Resource has made a positive contribution to the improvement of Environmental Assurance Company Inc in all areas in our **Commitment** to being a safe company! The whole staff at SRI is to be commended for your dedication, honesty, loyalty, and thoroughness in the role you play with our company. Thank you, keep up the good work and we look forward to a long lasting partnership.

Jeff Hart, President  
Environmental Assurance Company Inc.

### Ongoing Motivation

I just wanted to take this opportunity to thank you for doing such a great job here at Silver Towne. SRI has motivated my employees to think more about safety. They are excited about creating a safer workplace. In the past, I have tried to make positive changes towards a safer workplace, but I've ran into the wall of lack of participation. SRI has presented this issue in a way that has created motivation and excitement among all of our employees.

Silver Towne Mint  
Silver Towne L.P.

### Excellent Presentation

Indiana Water Environment association (IWEA) puts a great deal of focus on providing educational seminars that engage attendees and keep our members up-to-date with the newest information in the industry. SRI's presentation really fit the bill – the feedback from the presentation was great. IWEA really appreciates the time SRI spent preparing and presenting to our members and we look forward to working with you in the future.

Julia Petro, Association Manager  
Indiana Water Environment Association (IWEA)
